SB211 & SB213 Traumatic brain changes – need approval	Dr. Charleton	September 21, 2018

Old Business

A. Revision of Administration Protocol

Chief Owens- Progress

B. Meeting with Coroners

Continued and deferred to 2019 protocols. Please contact Dr. Calhoun for any issues for the time being.

C. M418 – Sepsis Protocol/Sepsis Protocol CCHMC suggestions

Adult only **approved** last meeting. Pediatric updates to come for all ages. One concern was amount of fluids chosen to be given prehospital. 500 ml vs 1 Liter. This was chosen for hospitals to know the exact amount given prior to arrival. Considering having separate protocol for different age groups. Committee would like to implement this for next month so this protocol could be published for 2018.

D. Special Trauma Situations

No updates.

E. SB 204, C301 CPR changes

Recapped changes from last meeting. **APPROVED.**

F. M414 – Stroke

Per members there is a sub-committee working on stroke. Discussion whether changes are needed? Sub-committee to come back and discuss at next meeting.

G. S501 – Head or Spinal Trauma Update ETCO2 numbers

Discussed changed in language. Discussion of the baseline and whether “baseline” changes. Live in meeting changes made to lines 4 and 5 of this protocol.

H. S505 – Pain Management

Chief Gallo sent out two formats for this protocol. Text vs Flow chart. Decision to keep text format for this protocol. Need to add “slow push” for Ketamine and change BP parameters. Hope to finalize next meeting with changes.

I. P607 Respiratory Distress Pediatric Flow chart

Spelling corrections to be fixed. Discussion of PRAM score. Suggestions for these protocols to match stridor protocol. Adding PO IV Solution to each. **APPROVED.**

J. T704 – Spinal Immobilization

See additions. Talk with your local Athletic Trainers and agree on systematic approach for your community. **APPROVED.**

K. A105 – Determination of Death

No updates

L. Hospital Reporting Guidelines – NEW PROTOCOL

Encourage people who want alerts to sign up through surge net. Committee has concerns that no one will sign up, agreement that this must be educated if people want alerts of facilities going “At Capacity” etc. **APPROVED.**

M. SB211 & SB213 - Trauma Protocol- review section on elderly patients and anti-coagulants

Update to reflect that transport of pts with negative traumatic brain injury signs, who are on thinners, can go to nearest ED.

N. C303 & C304 - Dilution of Mag Sulfate in Torsades

See live changes from meeting. These better reflect AHA and ACLS guidelines. See point I. **APPROVED.**

O. S506 – Administration of Tranexamic Acid

Updated TXA for pediatric administration. See chart. **APPROVED.**

New Business

- A. Larry Bennett introduced us to his pet therapy dog Frye. Larry spoke about the Therapy Pets of Greater Cincinnati and the benefit they have in hospitals.
- B. Ed VonLehmden talked about the upcoming free training for firefighter mental health awareness. There are events in September and October. For additional information please contact Ed at evonlehmden@gmail.com

NEXT MEETING: September 28th at 0900 – Blue Ash Fire Department
